# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

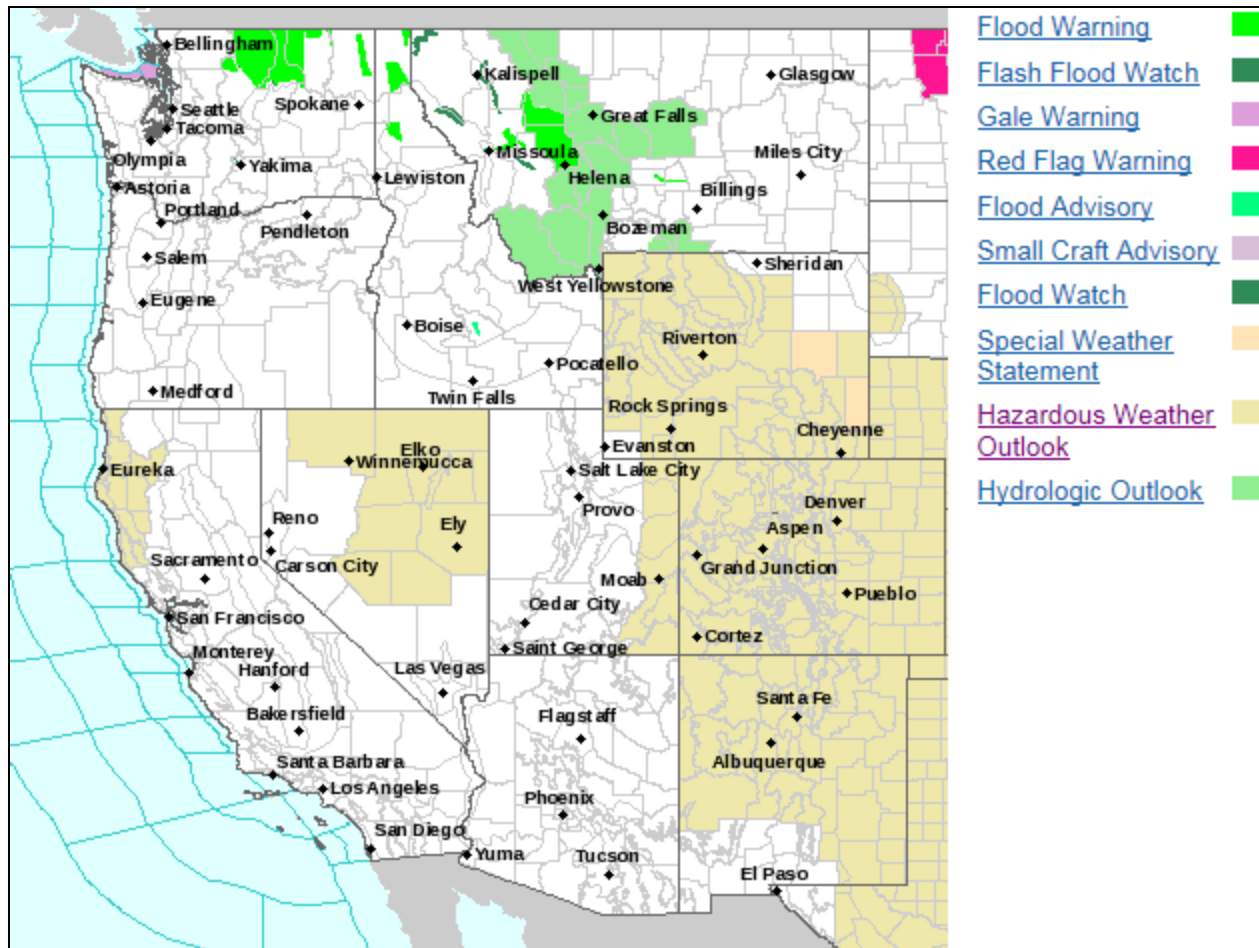

Mild temperatures continue through the week. Afternoon and evening thunderstorms are possible over higher terrain for much of this week with a chance of showers across the region Wednesday. More widespread shower and thunderstorm activity is expected on Wednesday, including the Central Valley, as the offshore low moves inland across the Bay Area and then into the Central Valley in the vicinity of Sacramento and Stockton. The system is forecast to shift eastward Thursday and Friday returning shower chances to mainly the mountains. Temperatures will continue to cool today and Wednesday; however, are expected to return to around average later this week.

## **SOUTHERN CALIFORNIA**

Low pressure will persist near the California coast through next weekend maintaining onshore flow with periods of gusty southwest to west winds in the mountains and deserts, high temperatures near to a little below average, with areas of night and morning low clouds and fog for coastal and valley areas. Further inland, afternoon temperatures will be below normal into midweek then will warm to near normal through the weekend. Overnight and morning low clouds will continue into early next week with some drizzle possible late tonight into Wednesday morning . The wind will be breezy at times Wednesday through Saturday.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-46688, 05/11/18, 0657 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours, the Cal OES Law Enforcement Branch Duty Officer (LDO) requested Civil Air Patrol (CAP) be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to San Diego Sheriff's Department (SDSD), who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred 05/10/18, in the area of Volcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. **Update: 05/11/18, 1720 hours,** SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to access issues caused by the fire. SDSD advised the site has been secured and they will assist with Medical Examiner (ME) and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. **Update: 05/12/18, 1410 hours,** SDSD advised they are still unable to positively identify the plane or victims due to the current fire situation. SDSD is planning to respond and assist the ME and NTSB investigators in the early morning of 05/13/18. **Update: 05/13/18, 1943 hours,** SDSD advised they have secured the remains of three victims and have provided information to the NTSB for identification purposes of the plane. SDSD plans to extract the three victims by helicopter on Monday, 05/14/18, pending current weather restrictions. Positive identification of the victims and plane are still pending further investigation. **Mission Ongoing.**

## Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and is anticipated to return to California on 05/19/18.

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
